SUMMARY

Results-driven Computer Science diploma graduate with hands-on professional experience in software development, workflow automation, and web technologies. Proven track record of building and optimizing automation pipelines, managing web systems, and integrating AI-driven tools. A fast learner and collaborative team player eager to bring practical industry experience and a strong technical foundation to a dynamic development team.

PROJECT EXPERIENCE

APPOINTMENT BOOKING SYSTEM

- Developed an appointment booking platform with making appointment, view appointment details, and cancel appointment functions.
- Database to store user details and appointment details.

BOOK PURCHASING SYSTEM

- Designed and developed an online bookstore website with product, cart, order, and view order functions.
- Aimed to develop a user-friendly online bookstore website.

WORKFLOW & DATA AUTOMATION (N8N & CRM INTEGRATION)

- Engineered multi-platform workflows using n8n to automate operations between WordPress, Google Drive, and SalesProcess CRM.
- Automated user data synchronization by building custom HTTP API requests to seamlessly transfer user registration data (email, name, phone) into the company CRM.
- Developed automated internal systems, including maintenance ticketing pipelines and tenant reminder workflows, to streamline daily property management operations.

WEBSITE MAINTENANCE (SHORTSTAY.COM.MY)

- Maintained website operations and enhanced platform security and user experience by resolving critical Google/Gmail OAuth login bugs, implementing an Email One-Time Password (OTP) verification system for secure registrations, and developing a custom search feature for the "My Bookings" page.
- Integrated AI-driven customer service chatbots utilizing the OpenAI API to automate booking inquiries, handle complex support logic, and streamline overall customer interactions.

MAINTENANCE MOBILE APP (FLUTTERFLOW)

- Designed a FlutterFlow mobile app to digitize internal maintenance workflows, featuring modules for "Raising Tickets" and "Action Taken" to streamline on-site issue reporting and media uploads, alongside secure user authentication to protect and restrict access to records.

EDUCATION

Diploma in Computer Science

July 2023 - 2026

INTERNATIONAL COLLEGE OF YAYASAN MELAKA (Collaborate with University Technology Malaysia)

Current CGPA: 3.71

ADDITIONAL INFORMATION

- **Technical Skills:** HTML, JavaScript, C++, Python, Visual Basic, .NET, Jupyter Notebook, UI, Android Studio, Adobe Photoshop, Cap Cut, PowerPoint, Canva, Word, Excel, Microsoft Access, N8N, Flutter Flow, App Sheets, 360 Degree Camara, WordPress, SalesProcess, eZee, FluentC, FillOut Form.
- **Languages:** English, Malay, Mandarin, Cantonese.
- **Personal skills:** Ability to work in a team, Quick learner.
- **Other experiences:** Sales Promoter, Photo editor, Vidio Editor, Waitress
